

New Source Review newspaper advertisements for construction permit applications, April 3, 2008. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: April 1, April 2, April 3, 2008, or April 4, 2008. Public notices are generally published every two weeks. The previous publication of public notices was March 20, 2008.

### PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9<sup>th</sup> Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is TEPPCO Terminal and Marketing Company, LLC with a mailing address of P.O. Box 2521, Houston, Texas 77252. They seek to obtain an air contaminant permit (Division identification number: 20-0054-01, 02, 03/61737, 61738, 61739) for construction of petroleum storage tanks and truck loading terminal to be located one mile southeast of Highway 114 off Brady Lane near Clifton, Tennessee. This proposed operation would consist of five (5) storage tanks, a three bay truck loading rack, and a vapor combustion unit. There would be physical construction. Regulated air contaminants would be emitted by these sources. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. Mr. T. Krinov is the assigned Division person.

For the Decatur County *News Leader* -- published once on or before Thursday, April 3, 2008.

---

The applicant is The D & L Company (Mid-South Converting, LLC) with a mailing address of 145 Locke Road, Somerville, TN 38068. They seek to obtain an air contaminant permit (Division identification number: 24-0099-01/61764) for construction of a printing operation located at the same address. This proposed operation would consist of a 6-color lithographic printing press that prints on plastic film with natural gas fired dryer. There would be physical construction. Regulated air contaminants would be emitted by this source. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. Mr. Thomas Krinov is the assigned Division person.

For the Fayette County *Fayette Falcon* -- published once on or before Thursday, April 3, 2008.

---

The applicant is Walker's Truck Contractors, Inc. with a mailing address of PO Box 6173, Knoxville, TN 37914. This company seeks to obtain an air contaminant permit (Division identification number: 45-0137-01/61572) for a rock crushing operation located at 2002 Hwy 11-E, New Market, TN 37820. This operation consists of rock crusher where stone will be crushed, screened, and conveyed to various stockpiles. Wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Doug Warden is the assigned Division person.

The applicant is Food City Gas N Go #650, with a mailing address of P.O. Box 1158, Abingdon, VA 24212. They seek to obtain an air contaminant permit (Division identification number: 53-0162-01/61782) for construction of a Gasoline Dispensing Facility located at 950 US Highway 321, Lenoir City, TN 37771. This proposed operation would consist of two gasoline storage tanks and associated gasoline dispensing equipment. Stage I gasoline vapor recovery would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. Hymelia Craig is the assigned Division person.

For the Loudon County *News-Herald* -- published once on or before Thursday, April 3, 2008.

---

The applicant is Williams Funeral Home, Inc. with a mailing address of P.O. Box 38, Columbia, TN 38402. They seek to obtain an air contaminant permit (Division identification number: 60-0210-01/61840) for construction of a Propane/Natural Gas-Fired Incinerator located at 6465 Trotwood Avenue, Columbia, TN 38401. This proposed operation would consist of a cremator and associated equipment used to incinerate animal remains. Propane or natural gas would be used for fuel. An afterburner would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. E. King is the assigned Division person.

For the Maury County *Daily Herald* -- published once on or before Thursday, April 3, 2008.

---

#### FIRST APPLICANT:

The applicant is TEPPCO Terminaling and Marketing Company, LLC with a mailing address of PO BOX 2521, Houston, TX 77252. They seek to obtain air contaminant permits for construction of a new petroleum storage and truck loading terminal located one mile south of Highway 41A bypass on an unnamed street between Queens Bluff and Beacon Drive near Clarksville, TN 37043, as follows:

(1) Gasoline, Diesel, or Ethanol Storage Tanks (Division identification number: 63-0260-01/61729). The proposed operations would consist of four gasoline, diesel, or ethanol storage tanks, and associated equipment used to load, store, and unload gasoline, diesel fuel, or ethanol from river barges for further distribution by truck. Internal floating roofs will be used as a pollution control method. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Doug Wright is the assigned Division person.

(2) Diesel or Similar Petroleum Products Storage Tank (Division identification number: 63-0260-02/61730). This proposed operation would consist of one diesel storage tank, and associated equipment used to load, store, and unload diesel fuel from river barges for further distribution by truck. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Doug Wright is the assigned Division person.

(3) Vapor Combustion Unit and Truck Loading Area (Division identification number: 63-0260-03/61731). This proposed operation would consist of a vapor combustion unit connected to a four-bay truck loading area and associated equipment used to reduce volatile organic vapor emissions. The vapor combustor would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Doug Wright is the assigned Division person.

#### SECOND APPLICANT:

The applicant is Robert Bosch, LLC with a mailing address of 780 International Blvd., Clarksville, TN 37040. They seek to obtain an air contaminant permits for modification of existing air contaminant sources located at the same address as follows:

(1) Dry Machining Operation (Division identification number: 63-0149-10/61841). This existing operation consists of twenty-five machines, and associated equipment used for dry machining of brake parts. Dust hogs are used for pollution control. The requested modification is to exhaust the emissions to the outside of the building instead of to the building interior. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. M. Reynolds is the assigned Division person.

(2) Wet Machining Operation (Division identification number: 63-0149-11/61842). This existing operation consists of one machine, and associated equipment used for wet machining of brake parts. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. The requested modification is to increase volatile organic compound (VOC) emissions. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. M. Reynolds is the assigned Division person.

(3) Surface Coating Operation (Division identification number: 63-0149-12/61843). This existing operation consists of eight spray booths, ovens, and associated equipment used to coat brake parts. Exhaust filters are used for pollution control. The requested modification is to add four additional spray booths. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. M. Reynolds is the assigned Division person.

For the Montgomery County *Leaf-Chronicle* -- published once on or before Thursday, April 3, 2008.

---

The applicant is Resthaven Pet Cemetery with a mailing address of 408 Community Park Road, Seymour, Tennessee 37865. They seek to obtain an air contaminant permit (Division identification number: 78-0099-02/61798) for modification of an existing Animal Crematory Operation located at 914 Maryville Highway, Seymour, TN 37865. This existing operation consists of a natural gas fired incinerator and associated equipment used to cremate animal remains. There is an afterburner for pollution control. There would be physical construction. Regulated air contaminants are emitted by this source. Ms. Hymelia Craig is the assigned Division person.

For Sevier County *Mountain Press* -- published once on or before Thursday, April 3, 2008.

---

The applicant is Essex Group, Inc. with a mailing address of 120 Southeast Parkway Drive, Franklin, Tennessee 37064. They seek to obtain an air contaminant permit (Division identification number 94-0072/61640) for modification of some of their existing Magnet Wire Oven Processes located at the same address. The modification would consist of replacing existing ovens with newer ovens divided into separate compartments, allowing increased throughput rates and greater flexibility in the operation of the ovens. There would be a physical construction and regulated air contaminants would be emitted by this source. An incinerator will be used to control emissions from this source. Mr. Younes Aleali is the assigned Division person.

For the Williamson County "*Williamson A. M.*" -- published once on or before April 4.
